this evening. He is Rev. Abraham Zeidman, co-director of Scott Missien, Toronto, an institution which has provided food and shelter over many years for people in straightened circumstances.

Some subjects provide the basis of interesting discussome suejects provide the basis of unreferring dis-sion. One of these arose the other night when a group of men got together, one of whom wore a beard which would be the pride of any connoissur of beards, if there are such creatures. One of the foursome studied the beard intently for some time and finally got up enough courage to pose the question: "Why do you wear a beard?"

me directed one at the group to be answered by each indi-idual. He was curious to know what reasons they had or not wearing a beard. Each in turn agreed that they for not wearing a beard. Each in turn agreed that they had toyed with the idea and some admitted having made a short-lived start. They were also in general agreement that they more or less feared not to conform to the widely accepted practice of shaving, bothersome as the morning ritual was conceded to be. One member of the party said him very self-conscious of an outcropping of whiskers in the presence of the fair sex. Another thought it was a matter of courage. . . . NOTICE TO POLICYHOLDERS AND FRIENDS

I have now secured the exclusive agency for this area

THE NORTH WATERLOO FARMER'S MUTUAL INSURANCE CO. OF WATERLOO, ONT.

...The North Waterloo is an old established Farm Mutual Company, and having reached a million dollars of assets is now able to offer insurance without a premium

I have investigated most companies that write farm fire insurance in Ontario, and it is my opinion that North Waterloo offers the broadest coverage and the lowest rates of all companies compared.

The company has a new farm composite policy that insures your farm dwelling, out buildings, produce, livestock and machinery floater, and liability in one package

The policy covers fire, lightning, windstorm, etc.. Also multi-perils on machinery and livestock, collision and theft, collapse of bridges, transportation perils and electric currents and accidental shooting of animals.

Comprehensive liability may be included in policy to cover personal, residence, born, outbuildings and livestock. Operation of farm madchinery, fractors, combines and draft animals. Also covers animal collision up to \$300 per head.

Private dwelling, schools, churches and halls, curling and skating arenas, and mercantile risks also written at lower rates than chraged by most companies.

Introduction of weekly plays at the Academy Theatre, the town's oldest show house, might well be a stepping-stone to still greater use of this building which has been a part of Linday's entertainment life for years. The success enjoyed by the Community Occasion to bringing outside for the community occasion to the community occasion. Lindsay indicates there is a reasy toulously and, since the association's program functions only during the fail-winter-spring season, many of its members would probab-ly welcome summer theatrical productions. Then, too, there is the attraction such a program would hold for the tourists in the district - Lindsay should be the centre of entertainment for these people and this is one way to

Looking over old files of "The Post", frequent re ferences are made to "amateur talent programs" which were staged at the Academy. The Lindsay Little Theatre group, the annual Kiwanis musical comedy productions and so forth, clearly indicate that this district is rich in talent. It is a natural resource which should be developed as fully as possible for the enrichment of community life.

EVERYBODY'S AN ENGINEER . .

We have often thought that apart from being a newspaperman one of the world's most thank-less jobs is probably that of being a civil engineer for a and are called upon to build a sidewalk or a roadway It is then that they discover just how many sidewalk superintendents and engineers-at-heart there are in the average community, everyone of them avowing they could do a sight better than the man who was especially trained for the job. To the uninitiated, this is a heart-breaking discovery and many a promising young engineer just can't take it

Lindsay has been fortunate these last few y having a seasoned and skilled civil engineer to guide it through some troublesome expansion problems. At the same time Town Engineer Timberlake has brought stead of being replaced in the customary manner with the curbing heart a such a sharp angic that motorists had to get halfway across a street before attempting convenient cornering. There are numerious examples of really excellent work having been carried out by Lindays Works Dept. and we believe it is time the exgineer and his men were given a well-deserved citation for many lobs well done.

It is one thing to criticize another a different thing to do as good a job if auddenly rossed into the breach. A man in public office soon learns that to please everyone is impossible and that to do the best possible thing for the greatest number of people

AN INTERESTING DOCUMENT APPLYING TO ALL CANADIANS MOST ATTRACTIVELY PRESENTED

Deery reading Ganadian is probably sware of the existence of The Ganadian Bill of Rights which was contained in the act for the recognition and protection of human rights and freedoms presented to parliament last Dominion Day by Prime Minister John Dietenbasker. THE HISTORY OF PRINTING AT A GLANCE

Last week the corner-stone of a new International Museum of Typography was laid in Mainz, the city that is generally considered the birthplace of the art of modern is generally considered the birriplace of the art of modern printing. It pioners, Johann Gutterber, Jived in Manus for many years. In addition to housing the contents of the lid Gutterberg Numeron Minint, the new bindings will contain displays illustrating the development of printing through the centuries, an ancest paper factory and a modern printing plant. Its most previous appear factory and a modern printing plant. But most previous display display the printing display of the factor of the vere printing below the printing display of the factor of it were printed between 1452 and 1458, and of them only a few still exist.

The Mayor of Main. Her Stein, officiality at the ceremony, expressed his thinks to the International Gut, emberg Society for its help in the project. This group his raised BM (Denusele Marsh) report is estimated at DM (Denusele Marsh) report is estimated at DM (2000). So one of the project is estimated at DM (2000). So one one of the other with the borne by the city of Main. The new museum is to be opened in 1983 to coincide with the with the electrication anxiety the 200th assist versary of the city's founding.

FURTHER COMMENT

The Canadian Bill of Rights does more than estab-lish a code of freedom and rights, it places a responsibility on every Canadian citizen to see that they are held invio late. This is the only way such a bill can serve the pur pose for which it is intended.

Russia has put a man into space and brought him, safely back. The Soviet news agency Tass has announced that a Soviet astronaut was blasted into orbit around the earth this morning and landed safely somewhere in the Soviet Union. The announcement says a five-ton space-ship took the Soviet Astronaut into an orbit over South America and South Africa at allitudes ranging from 109 to 187 miles. Official sources say the flight lasted one hour and 48 minutes. The Astronaut is a 27-year old major in the Soviet Air Force named Yuri Gagarin. major in the Soviet Air Force named Yuri Gagarin, Gagarin is the hero of the day in the communist world. On landing, Moscow radio reports him as saying — "I Feel well. I have no injuries or bruises." The so-call "Gosmonaut" is married and the father of two girls. Ga-Khrushchev hailed the Russian space feat and heaped praise on Gagarin for his role in history's first manned space flight. The Russian people greeted the news with an enthusiasm that western newsmen say is unparalleled since V-E day in 1945. Wild celebrations and spontan-cous parades of thousands took place in the streets of

BETTER LATE THAN NEVER BUT PRETTY LATE NEVERTHELESS

BUT PRETTY LATE NEVERTHELES.

There are indications that the people in the Haliburton region and areas affected below that highland county may be in the for some attention relative to low water lavels which have become increasingly serious. The adage "better late than never" probably applies in this case but it is pretty late nevertheless.

it is pretty late nevertnesses.

Extremely low and inconveniencing water levels in the region have existed for many years but the long-suffering residents got little more than "the run around" whenever they protested. It has taken a long, long time to arouse public officials to the need for action . . . In seasone it took an aroused public to attract their attention and bring

early in the 18th century." Most persons probably
havea't been particularly curious to know how the
maple grup judicity was born but were countent with
the fact that it was and they filed in protect. A few,
expectally those who opent their childhood sevene disespecially those who spent their childhood or some of their adult years in rural areas, were likely content with the knowledge that by taking a brace and bit, drilling into a hard maple tree in springtime, inserting a spigot and attaching a pail, sap could be harvested converted to syrup.

It has remained for the Dept. of Lands and Forests

to call attention to the fact that the maple symple-dustry is a product of Indian creativity. While the department doesn't enlarge on how the Indians first became aware of the sugar maple's potential, it may have been purely accidental. . THE CUBAN STUATION
The people living in this part of the world have The people living in this part of the world have the people living in the people living livin of most Canadians . The trouble spots were fairly re mote, even in a shrinking world insofar as travel and com munications were concerned.

Suddenly, the picture changes and we have a poten-tially dangerous situation developing uncomfortably close to home. The Cuban situation is perhaps creating the ten-sest relations between United States and Russia for some and Canada is virtually caught in the middle should

As we observe this trouble spot, we cannot help won-dering if it will make Canadians any more conscious of the need for civil defence. Beryone has observed the apathy which has prevailed in this direction almost ever since the possibility of a nuclear war arose - It has been virtually impossible to persuade the majority of

people to participate.

If the situation in Cuba worsens rapidity, it could be
too late to test together any kind of an effective civil,
defense organization in Canada. On the other hand if it
manages to the out without resulting in a major conflict,
and every-her it will, can it be expected that the pracurrous position of this nation in the event of war between
Russia and United States will be fully recognized and the
positive rings taken to provide adequate civil defense.

TRIAL RECESSES TILL FRIDAY

The trial of accused mass murderer Adolf Eichmann has recessed until Friday. Today the Jewish court heard a taped statement made by Eichmann shortly after he arrived in Israel to stand trial on charges of killing six million Jews under Nazism. Eichmann shad repeatedly that he did it all under orders, that he hated the job and really was a sensitive fellow. But he did not ask for mercy, saying he did not deserve it. MAY STRENGTHEN CHANCES

There is speculation among informed Ottawa sources that South Africa's withdrawal may have strengthened chances for future commonwealth meetings to be held in capitals other than London. Prime Minister Different backer has in the past suggested that some conferences be moved to other commonwealth capitals. Informants he moved to other commonweath capitals. Intrinsions say south Africa's touchy racial issue has been one of the main stumbling blocks to implementing Mr. Diefenbaker's plan. Now, they say the principle basis of this issue appear to have been removed.

\$800 realized from tackle sold here

The sale of seized fishing tackie held recently at Lind-say realized over \$800 for the Provincial coffers. The ou door sale drew approximately 350 people who braved the cold weather to bid briskly on the 115 articles offered for

sale.

Fish and Wildlife Supervisor K. K. Irizawa says he would hazard a guess that many youngsters in this area are happy with their fishing' rod and even thought father (or mother) may be a little lighter in the pocket-book.

Mayor compliments budget-weary councillors

Mayor Jos. Holtom handed members of council a bouquet Monday night when he ex-pressed thanks and apprecia-tion for their efforts over the past three "arduous months."
"I wish to thank all the committee chairman and members of council for their co-oper-

ation," he said.

His worship made these remarks shortly after the bylaw setting the 1961 mill rates, and making them official was given third reading.

Earlier Councillor Jos. Hut-ton remarked that he thought

council had worked extremely bard on the mill rate this year and had done the best it possibly could. "I think this council worked harder on it than any other council I have sat on," he said.

The only surprising thing about the situation in the section of Linday under discussion in that residents have shown as much patience as they have. . . It should ment loader reward.

THE COUNTY COUNCIL CONTROVERSY

There is a growing interest in the controversy which has arisen in the wake of some pronouncements on the county council system of government by Linday's reeve. It is a good thing for people to express their dissatisfactions with any situation providing the aim is to bring about improvement and not simply criticize for the sake of catalotisms.

As the volume and complicity of municipal business increased, this dependence. pincity of municipal obsiness increased, this dependence on the clerk became noticeably greater. It has only been in recent times that Mr. Allely has been given a measure of relief through the appointment of an assistant, a step which was really long overdue. In the light of the clerk's letter to the 1981 council stating that he wished to retire at a date agreeable to all parties and which will not inconvenience the town, he has again demonstrated his interest in Linday's welfare. The town will no doubt with to make it clear to the most interested in him and his folium preference is to retain, had a dulity in municipal strates. PARKING AUTHORITY - WHAT IS IT?

PASCHIO AUTHORITY — WHAT IS IT?

There has been some discussion here lately concerning the formation of a "parking authority" but so
ce seems to be to clear as to just what the term
manns. This applies not only to the average man
on the sures but to asversi members of council whis
appear that the concern of those who propose this
arrangement is primarily with providing adequate
parking facilities in downstown Lindsay. However,
the term "parking authority" suggests an organization
or group vested with certain powers which might or
ever well-intended. This, of course, could only
be determined in the hight of a clear definition of the
proposed arrangement.

be determined in the light of a clear definition of the proposed arrangement.

In the meantime, it seems that all that is really required to deal with the parking problems confronting the town is a consumer as appointed to the large for that elected body's section of report its inflating for that elected body's section.

The other day we received a very interesting letter from Rever E. A. Cameron of Healey Township. In his letter, Mr. Cameron outlines many of the problems which have to be resolved by the council of the town-charmon outlines many of the problems of the prob

One of these reads: "In summing up the tax pro-blem, I might say that the money is already spent in-sofar as the 1961 council is concerned — It will be up to the 1962 council to tighten down or we will

And then he goes on to reflect on the trend of financing at the government and personal level these days in the following words: "It seems the only way to live these days is to keep behind the grindstone. As our wage index is far below our cost of living, it make t impossible to get to a place of retirement — To th average worker it is "work life out to keep life in". The old age pensioner can just barely exist, while others, it seems, receive more than their share. Sorry to say, it seems to be getting worse each year as the cost of living and taxation arises. Where, everyone is asking,

Reflecting on these remarks, we couldn't help but wonder if the plight of municipalities and many in-dividuals lan't simply the end product of mortgaging the future and if, however unpleasant the prospect, the one source and it, nowever unpleasant the prospect, the time bank' arrived when the suit is again going to have to be cut according to the cloth. That's the way our forefathers had to do it and no one has yet been able to show the world how to get two suits out of the material for one, even though we may be pre-pared to accritice the yests.

Reports and Remarks...

President Kennely's speech on Cuba before the American Society of Newspaper Editors has aroused more controvery than the importance perhaps warranted. Premier Nikis Khruscheev, as was to be expected, has demanated the President for justifying "actious against the security and independence of other peoples". Doen in the West, however, one paragraph in the speech has caused unestimess. Said the President.
